THURSDAY MARCH 27TH 2014 WAITING FOR SIMPAR

In order to improve the Simpar's tradition of exchanging experiences among attendants and speakers, we have decided to organize "Waiting for SIMPAR". It will be a day in which all attendants could choose to have a "face to face" meeting with important scientists of our scientific committee.

These meetings will be only for few people in order to guarantee the exchange of own experience and to speak about specific concerns.

Furthermore, there will be two advanced courses about Ultrasound and pain in order to evaluate how we can improve even more following the suggestions of Prof. Asenjo, Prof. Baciarello, Prof. Intelligente, Prof. Mariano and Prof. Peng.

Prof. Asenjo has also decided to organize an half a day course on new mini-interventional modalities to treat hip and knee pain.

Finally, there will be Young Against Pain project, a meeting of the best 30 Italian researchers chosen with a call that you can find at www.simpar.eu.

DO NOT MISS "WAITING FOR SIMPAR"
