

Il CISEF Germana Gaslini è  
 Provider Nazionale Accreditato ECM n. 856  
 Certificazione ISO9001:2008  
 Director: Maurizio Luvizone

Centro Internazionale di Studi e Formazione (C.I.S.E.F.) "Germana Gaslini"  
 Via Romana della Castagna, 11 A - 16148 Genova Quarto - Italy

## SAFETOTS: the Safe Anesthesia for Every Tots

### Registration

The course is open to 80 Anesthetists, Pediatricians, Neonatologists, Pediatric Surgeons, Pharmacists, Nurses and Pediatric Nurses.

**Deadline for registration: May 18th, 2016.**

Please, register on the website [www.cisef.org](http://www.cisef.org) or download and fill in the registration form from the course website and return it to the organizing secretariat by e-mail or fax.

### Registration fees

The fee of € 100,00 covers: access to scientific sessions, a coffee break and a lunch. Free for trainees. The fee must be paid after receiving confirmation from the organizing secretariat on-line with credit card or by wire transfer (details on [www.cisef.org](http://www.cisef.org)).

### Italian CME credits

The course has been accredited for Medical Doctors, Pharmacists, Nurses and Pediatric Nurses  
 Disciplines: Pediatrics, Neonatology, Anesthesia and Resuscitation, Pediatric Surgery, Internal Medicine. Obiettivo formativo di sistema n. 1: Applicazione nella pratica quotidiana dei principi e delle procedure dell'Evidence Based Practice (EBM-EBN-EBP)

### Official language: English

### How to reach the venue

**Plane:** from the International Airport Cristoforo Colombo, shuttle bus n. 100 (runs every hour) takes you to Genova Brignole railway station, where you can take bus n. 17 to Via Romana della Castagna.

**Train:** get off at Genova Brignole railway station, take bus n. 17 and get off in Corso Europa, in front of Via Romana della Castagna.

**Car:** motorway exit Genova-Nervi, take Corso Europa westwards, take the overpass to change direction and drive eastwards, pass the Hotel AC and ESSO gas station on the right, after 50 mts. turn right into Via Romana della Castagna, go straight 80 mts., enter the gate and follow the dust lane up to the parking lot.

The Safe Anesthesia For Every Tot initiative ([www.safetots.org](http://www.safetots.org)) has been set up during the last year to focus on the safe conduct of pediatric anesthesia. This initiative aims to provide guidance on markers of quality anesthesia care. The introduction and implementation of national regulations of 'who, where, when and how' are required and will result in an improved perioperative outcome in vulnerable children. The improvement of teaching, training, education and supervision of the safe conduct of pediatric anesthesia are the main goals of the safetots.org initiative.

#### **FACULTY:**

**Absalom Antony** – University of Groningen – The Netherlands  
**Becke Karin** – Cnopf Childrens Hospital, Nuernberg – Germany  
**Calderini Edoardo** – Ospedale Policlinico Maggiore, Milano - Italy  
**Disma Nicola** – Gaslini Children's Hospital, Genoa – Italy  
**Engelhardt Thomas** – University of Aberdeen – U.K.  
**Hansen Tom G.** – Odense University – Denmark  
**Picardo Sergio** – Ospedale Pediatrico Bambino Gesù, Roma - Italy  
**Veyckmans Francis** – Cliniques Universitaires Saint Luc, Brussels – Belgium  
**Vutskits Lazlo** – University Hospital of Geneva – Switzerland  
**Weiss Markus** – University of Zurich – Switzerland

#### **Program**

8.30 Registration  
8.50 Welcome address and Introduction

### **I Session: Safety in Pediatrics** **Chair: E. Calderini**

9.00 The SAFETOTS initiative – **M. Weiss**  
9.30 If's not anesthetics, what can harm the infants' brain? – **T. Hansen**  
10.00 Interactive discussion – **E. Calderini**  
10.30 *coffee break*

### **II Session: Catastrophes in pediatric anesthesia** **Chair: S. Picardo**

11.00 Cardiac arrest in the operating room – **F. Veyckemans**  
11.30 Awareness in Pediatric Anesthesia – **A. Absalom**  
12.00 The child with intractable pain and fear – **K. Becke**  
12.30 Interactive discussion – **S. Picardo**  
13.00 *lunch*

### **III Session: Leaving "Normal"** **Chair: M. Weiss**

14.30 CO<sub>2</sub> and Oxygenation – **T. Engelhardt**  
15.00 Blood Pressure and Brain perfusion – **L. Vutskits**  
15.30 Plasma Na<sup>+</sup> and other electrolytes – **N. Disma**  
16.00 Interactive discussion – **M. Weiss**  
16.30 *Lecture:* How research can improve safety in pediatric anesthesia. Lesson learned from the APRICOT – **W. Habre**  
17.00 *Discussion, test and conclusion*
